Dear Paul,

Moo knows Eric Trumbach personally and will be asking him about CD244:42-3. He sees in this exactly what I do. And I ask you, do you have any reason to believe anyone outside the government (exdept the very well known Addrews) had any way of knowing of the involvement of one Clay Bertrand in the investigation within a week of Andrews telling the SS? Or in a gay bad known to be patronized by you know who?

On the N.O.P.D.I.U. reports, I now am told an effort is being made. I'll let you know when I can, meaning when I know.

Nothing new recently. I have not received those things I have seen and told you about but I have no reason not to expect them. Mypresutption is that channels are always slow and in these it is always winter.

Best,
